

MAPICS/INFOR GLOBAL

Business Need – *Dover Hydro*

- LPA's business partner requested engagement to install and configure the first MAPICS EBI implementation at a key client site.

Solution

- In a two week engagement, LPA installed, configured and performed knowledge transfer for Cognos Analytics (MAPICS EBI Solution).
- LPA provided custom Impromptu development services to produce critical, year-end financial reports.
- Provided custom Impromptu training class to BI administrators.
- Coordinated production of customer case study to be used in future sales opportunities.

Business Need – *Dryvit, Inc.*

- MAPICS client's financial group needed to produce accurate, customized month-end reports and found standard reporting capabilities inadequate for roll-ups and calculations. Client had no prior experience with Cognos tools.

Solution

- LPA provided recommendations regarding how to best deploy EBI functionality.
- Installed and configured Cognos BI tools (PowerPlay Enterprise Server and Impromptu Web Reports), SQLServer and MAPICS EBI Sales Analysis.
- Created aggregation model and analysis cube in PowerPlay.
- Provided custom Impromptu development services to create custom catalog and five reports.
- Provided knowledge transfer to IT staff on Impromptu and EBI Sales Analysis.

"LPA is my go-to BI partner."
